Re: Addendum - Upgrades to AV System

The purpose of this memo is to present the option of purchasing a system with TWO microphones.

After the original memo, there was discussion about sound quality and whether a “Medium Room” setup with one microphone would be adequate for our purposes.

Mike Greene went on to compare products and found that upgrading from a “Medium Room” to a “Large Room” setup (which comes with two microphones) is more cost effective than the stand-alone purchase of a second microphone.

If interested, the new budget consideration would be \$6500 to replace the current AV Equipment & AVCapture subscription with new Logitech AV Suite and subscription to Zoom Rooms.
