election

I am instructed by the City Council to request you to prepare full instructions for the calling and conduct of the coming Municipal Election to be held on Tuesday, December 7th, 1909. You will kindly make these instructions very explicit, regarding the calling of this election, the appointment of judges, clerks, designation of a polling place, printing of ballots, certifications of nominations and in fact all necessary instructions for the proper and legal conduct of the entire election.

Very Truly yours,

The reply was read by the Mayor.

Friday Harbor, Wash.
Nov. 8th, 1909

To The City Council of the Town of
Friday Harbor, Wash.

Gentlemen:

Reply

Your municipal election to be held in December shall be held in accordance with the general election laws of this State, so far as the same may be applicable.

No person shall be entitled to vote at this election unless he is a qualified elector of the county, that is, has resided in San Juan County for 90 days, and for 30 days within the city, preceding the election, and unless he is a registered voter in the Town.

The Council shall give notice of the election, and shall appoint boards of election, and fix their compensation, and establish the polling place.

Immediately upon the closing of the poll books the clerk must certify to the authenticity of the duplicate poll books, and in time for the opening of the polls on election day to turn over the duplicate poll book to the inspector or one of the judges of the election and take his receipt therefor.

The nominations for the various offices to be filled will have to be made by convention, and there can be more than one convention. It is not the duty of the Council to provide for this convention. There is no primary election for the nominations of officers in a town of the fourth class.

Certificates of nomination of candidates for municipal offices shall be filed with the clerk of the Town not more than thirty nor less than three days previous to the election.

The list of nominations to offices shall be published in one of the newspapers in town at least three days before the election.

The Town Clerk shall provide ballot boxes or pouches, printed ballots and the duplicate poll book.

The ballots shall be printed on good quality white paper and the names of the candidates who have been regularly nominated and no others, for the special requirements as to the forms and printing follow section 4946 of Pierce's Code.

The Clerk shall provide twice as many ballots as there are voters.

registered.

If the nominations to the offices are made by convention it will be necessary for your proper officers to see that the certification is properly made and by the proper officers of the convention.

Respectfully submitted,
Frank P. Christenson,
City Attorney.

The matter of appointing election officers for the municipal Election to be held on the 24th of December 1909 and the place of holding said election was discussed and laid over until the next meeting night.
