FRIDAY HARBOR CONSOLIDATED SCHOOLS

ACCREDITED FOUR YEAR HIGH SCHOOL
V. W. TALBOTT, SUPERINTENDENT

FRIDAY HARBOR, WASHINGTON, March 25th, 1924. 192

To the Honorable Mayor and Members of the Council,

Friday Harbor, Wash.

Gentlemen:

We hereby petition your honorable body that neccessary legal steps be instituted looking to the vacating of Churchill Street .By refering to the town plat you will observe that School District #133 owns the entire property fronting on this street on either side and that no privately owned property will suffer any damage thru the closing of this street;that the street is now used by the pupils of the public school as a playground and is badly needed for that purpose.A knowledge of the situation will preclude the grading and opening of this street as it would serve no useful purpose and would be a matter of considerable expense by reason of the rough nature of the ground at the northeasterly end of the street,there being a large amount of bed-rock at this end.

By reason of the above facts,we respectfully, request that the street be vacated and that the property revert to the district thru its ownership of abutting property.

Respectfully submitted,

School Dist. #133

George Stoney Chairman

Curt K. Carter Clerk

V. W. TALBOTT, SUPERINTENDENT

FRIDAY HARBOR, WASHINGTON, August 26th, 1924. 192

To the Honorable Mayor and Members of the Council,

Friday Harbor, Wash.

Gentlemen:

Sometime ago we petitioned your body for the vacation of Churchill Street which you immediately took steps to have done. It was deemed desirable that this be done for reasons set forth at that time.

Upon our beginning construction of the school gymnasium, a desire to place the building at least 69 feet

The following resolution was passed:
Whereas it appearing to the council that the portion of the street as described in the petition from the school board, will never be practicable for street purpose, and
Whereas it is desired for public school purposes now therefore be it resolved that that portion of the street be vacated and that Tuesday Sept. 9th be set as a day for hearing protest if any there be.
Motion was made seconded and carried that said resolution be adopted. Motion carried unanimously.

PROSECUTING ATTORNEY

WASHINGTON

FRIDAY HARBOR, WASH.,

Jan 12th, 1925.

Mayor and Council,
Friday Harbor, Wash.

Gentlemen;

I am requested for an opinion as city attorney upon the right of payment out of the general fund, or any other fund of the city, of the cost of furnishing grade on a sidewalk to a property holder constructing sidewalk voluntarily.

There is no such authority, and expenditure for that purpose is in my opinion illegal.

While the ordinance provides that no sidewalk shall be constructed except at grade, the city paid for the establishment of the grade , and rightfully so. But this has been done, as I understand it, upon certain streets as a whole. The cost of finding that grade upon any individual holding however, must fall upon the owner.

The city has no right, or authority to expend from public funds raised by taxation of the general public, any sum, be it only five cents, except as directed by the law duly passed and in force. Under existing law, we have no right to furnish any especial benefit. The grade for an entire street or section of the city could be furnished, under proper ordinance, at the expense of the general fund, were there budget appropriation therefore duly made and allowed as provided by law.

But the only cost of sidewalks that the city is other wise now authorized to pay for with public funds, is the cost of building or repairing around city owned property, and at the street intersections. All other expenses of construction must be paid by the property owner, including the cost of a surveyor to determine the grade of the sidewalk to be equal with the established grade, I believe. There was a time when each owner could have determined the grade lines by staking while the level was known across his property, and then he would have been at no expense other than his tax contribution to the cost of running the general level or grade. But at this date, and after establishment of a grade on any street, it is my opinion that each owner must bear the cost of finding the grade level as established. The city would have to inform him of what it had been established at, but no more.

Yours sincerely,

Samuel R Buck
